WHAT IS “PLANET GOALS”?

Planet Goals Project is a European project aimed at promoting environmental awareness and sustainability through educational initiatives. The consortium consists of 7 organizations from 7 European countries. The project focuses on disseminating knowledge related to Sustainable Development Goals (SDGs) and integrating environmental topics into didactic curricula, encouraging students to engage in activities that foster a deeper understanding of ecological issues and sustainable practices. By providing resources and raising awareness, Planet Goals seeks to empower VET educators and their pupils to become **proactive in addressing relevant challenges**.

OUR CURRENT TASKS
