

Welcome to the fourth newsletter of Planet Goals Project!

Welcome to the fourth edition of the Planet Goals newsletter! As we move into 2026, our project enters its most exciting phase yet. After months of intensive development, translation, and technical refinement, we are ready to bring our tools directly to the VET community across Europe

WHAT WE HAVE ACHIEVED?

The consortium has reached several major milestones:

- **Finalization of the Handbook for Educators:** The comprehensive guide covering the 17 Sustainable Development Goals (SDGs) is now fully translated into all partner languages (Swedish, Norwegian, Slovenian, Polish, Italian, Spanish, and Greek).
- **Platform Integration:** Our RWD (Responsive Web Design) educational platform has undergone rigorous technical testing. We are currently finalizing the upload of all interactive modules and the Handbook "flipbook" version to ensure a seamless user experience across all devices.
- **Workshop Manuals:** We have completed workshop manuals that will support VET educators in conducting the upcoming platform-based workshops.

HIGHLIGHT: VALENCIA MEETING

The consortium will meet in **Valencia**, Spain, for a 2-day transnational meeting on the **20th and 21st May 2026**.

- The partners will focus on the final visual enhancements of the platform and share strategies for reaching our goal of over 350 active users for the workshop content.
- This meeting will be crucial for aligning our national implementation plans and ensuring that the project effectively addresses the specific labor market needs of each region.

WHAT'S NEXT?

This year marks the start of the **Piloting Phase** for WP3. Over the coming months, the Planet Goals Handbook content (WP3) will be integrated into the digital platform. Following this integration, we will develop plans for organising piloting events in each participating country, which will serve as an opportunity to present and discuss the materials, as well as to collect valuable feedback from participants.

UPCOMING ACTIVITY

Stay tuned for information regarding the **second webinar** that will be organized in **June 2026**!

Stay tuned for even more updates coming soon!
And don't forget to check out our website and social media!
